

As a registered student for a UAS Radar course you have access to helpful online material. Please follow the instructions and take advantage of as much information as you have time for. Depending on the course, the online material will be available within 1-2 days of registering or 2 weeks before the course begins.

Steps to access course modules

Go to and follow the instructions at:

<https://uascentral.uas.alaska.edu/elmo/>

Write down your username and password for future reference

Need help? Call toll-free: 877-465-6400

Go to the Blackboard site at:

<http://classes.uaf.edu/>

Log in with your username and password

Need help with Blackboard? Call toll-free 800-478-8226

Click on the Radar course you have signed up for.

Click on Course Modules if that page does not load first.

You will need your own navigation ruler and divider plus be able to print the provided blank plotting sheet or purchase your own from a marine supplier.

The Online Radar Renewal / Refresher final exam must be proctored in person.

Call Dale Miller in Ketchikan at 228-4575 to make an appointment for the exam which normally takes an hour or less.

The UAS Maritime Department is striving to provide in the near future, radar exam proctoring centers in Juneau and a port in Prince William Sound.
